Fitte Describes lab content concisely, adequately, appropriately Abstract Conveys a sense of the full report concisely and effectively Introduction Successfully establishes the context (concept/lab procedure) of the lab Effectively presents the objectives and purpose of the lab Forecasts rest of the document Design and Simulations Gives enough details to allow for replication of procedure Describes component selection & components selected correctly Explains how circuit works correctly Equations are explained effectively and correctly Simulation results are reported accurately and clearly, and are correct includes all assigned design and simulation tasks Design and simulation tasks completed successfully		25 50	75 100 X	Section Scores 2.00 2.00 5.00 10.00 4.00 4.00 2.00 50.00 8.00 7.00 7.00 7.00 7.00 7.00
Conveys a sense of the full report concisely and effectively Introduction Successfully establishes the context (concept/lab procedure) of the lab effectively presents the objectives and purpose of the lab effectively presents the document Design and Simulations Gives enough details to allow for replication of procedure pescribes component selection & components selected correctly explains how circuit works correctly Equations are explained effectively and correctly Simulation results are reported accurately and clearly, and are correct includes all assigned design and simulation tasks Design and simulation tasks completed successfully			75 100 X	\$ection \$cores\$ 2.00 2.00 5.00 5.00 10.00 4.00 4.00 2.00 50.00 8.00 7.00 7.00 7.00 7.00
Conveys a sense of the full report concisely and effectively Introduction Successfully establishes the context (concept/lab procedure) of the lab effectively presents the objectives and purpose of the lab effectively presents the document Design and Simulations Gives enough details to allow for replication of procedure pescribes component selection & components selected correctly explains how circuit works correctly Equations are explained effectively and correctly Simulation results are reported accurately and clearly, and are correct includes all assigned design and simulation tasks Design and simulation tasks completed successfully		25 50	X	2.00 2.00 5.00 5.00 10.00 4.00 4.00 2.00 50.00 8.00 7.00 7.00 7.00
Abstract Conveys a sense of the full report concisely and effectively Introduction Successfully establishes the context (concept/lab procedure) of the lab Effectively presents the objectives and purpose of the lab Forecasts rest of the document Design and Simulations Gives enough details to allow for replication of procedure Describes component selection & components selected correctly Explains how circuit works correctly Equations are explained effectively and correctly Simulation results are reported accurately and clearly, and are correct includes all assigned design and simulation tasks Design and simulation tasks completed successfully			X	5.00 5.00 5.00 10.00 4.00 4.00 2.00 50.00 8.00 7.00 7.00 7.00
Abstract Conveys a sense of the full report concisely and effectively Introduction Successfully establishes the context (concept/lab procedure) of the lab Effectively presents the objectives and purpose of the lab Forecasts rest of the document Design and Simulations Gives enough details to allow for replication of procedure Describes component selection & components selected correctly Explains how circuit works correctly Equations are explained effectively and correctly Simulation results are reported accurately and clearly, and are correct includes all assigned design and simulation tasks Design and simulation tasks completed successfully			X	5.00 5.00 5.00 10.00 4.00 4.00 2.00 50.00 8.00 7.00 7.00 7.00
Introduction Successfully establishes the context (concept/lab procedure) of the lab Effectively presents the objectives and purpose of the lab Forecasts rest of the document Design and Simulations Gives enough details to allow for replication of procedure Describes component selection & components selected correctly Explains how circuit works correctly Equations are explained effectively and correctly Simulation results are reported accurately and clearly, and are correct includes all assigned design and simulation tasks Design and simulation tasks completed successfully			X	5.00 10.00 4.00 4.00 2.00 50.00 8.00 7.00 7.00 7.00

Entroduction Successfully establishes the context (concept/lab procedure) of the lab Effectively presents the objectives and purpose of the lab Forecasts rest of the document Design and Simulations Gives enough details to allow for replication of procedure Describes component selection & components selected correctly Explains how circuit works correctly Equations are explained effectively and correctly Simulation results are reported accurately and clearly, and are correct ncludes all assigned design and simulation tasks Design and simulation tasks completed successfully			X	10.00 4.00 4.00 2.00 50.00 8.00 7.00 7.00 7.00
Successfully establishes the context (concept/lab procedure) of the lab Effectively presents the objectives and purpose of the lab Forecasts rest of the document Design and Simulations Gives enough details to allow for replication of procedure Describes component selection & components selected correctly Explains how circuit works correctly Equations are explained effectively and correctly Simulation results are reported accurately and clearly, and are correct Includes all assigned design and simulation tasks Design and simulation tasks completed successfully			X X X X X X X X X X	4.00 4.00 2.00 50.00 8.00 7.00 7.00 7.00
Effectively presents the objectives and purpose of the lab Forecasts rest of the document Design and Simulations Gives enough details to allow for replication of procedure Describes component selection & components selected correctly Explains how circuit works correctly Equations are explained effectively and correctly Simulation results are reported accurately and clearly, and are correct ncludes all assigned design and simulation tasks Design and simulation tasks completed successfully			X X X X X X X X X X	4.00 2.00 50.00 8.00 7.00 7.00 7.00
Design and Simulations Gives enough details to allow for replication of procedure Describes component selection & components selected correctly Explains how circuit works correctly Equations are explained effectively and correctly Simulation results are reported accurately and clearly, and are correct includes all assigned design and simulation tasks Design and simulation tasks completed successfully			X X X X	50.00 8.00 7.00 7.00 7.00
Design and Simulations Gives enough details to allow for replication of procedure Describes component selection & components selected correctly Explains how circuit works correctly Equations are explained effectively and correctly Simulation results are reported accurately and clearly, and are correct ncludes all assigned design and simulation tasks Design and simulation tasks completed successfully			x x x x x	50.00 8.00 7.00 7.00 7.00
Gives enough details to allow for replication of procedure Describes component selection & components selected correctly Explains how circuit works correctly Equations are explained effectively and correctly Simulation results are reported accurately and clearly, and are correct ncludes all assigned design and simulation tasks Design and simulation tasks completed successfully			x x x	8.00 7.00 7.00 7.00
Gives enough details to allow for replication of procedure Describes component selection & components selected correctly Explains how circuit works correctly Equations are explained effectively and correctly Simulation results are reported accurately and clearly, and are correct ncludes all assigned design and simulation tasks Design and simulation tasks completed successfully			x x x	7.00 7.00 7.00
Describes component selection & components selected correctly Explains how circuit works correctly Equations are explained effectively and correctly Simulation results are reported accurately and clearly, and are correct ncludes all assigned design and simulation tasks Design and simulation tasks completed successfully			X X	7.00 7.00
Explains how circuit works correctly Equations are explained effectively and correctly Simulation results are reported accurately and clearly, and are correct ncludes all assigned design and simulation tasks Design and simulation tasks completed successfully			х	7.00
Equations are explained effectively and correctly Simulation results are reported accurately and clearly, and are correct ncludes all assigned design and simulation tasks Design and simulation tasks completed successfully			х	7.00
Simulation results are reported accurately and clearly, and are correct ncludes all assigned design and simulation tasks Design and simulation tasks completed successfully			х	7 00
ncludes all assigned design and simulation tasks Design and simulation tasks completed successfully				7.00
Design and simulation tasks completed successfully			X	7.00 7.00
